

IEEE *Xplore*[®] Digital Library

Discover a smarter research experience
via upcoming training session

About IEEE *Xplore*:

- Nearly 3 million top-cited documents
- Leading technical journals, magazines, conference proceedings and standards
- Multidisciplinary content with an intelligent search interface

In this session, learn:

- How to take advantage of advanced search features such as field searching, wildcards, and proximity searching
- How to broaden and narrow searches using facets
- To search for competitive information using author affiliation
- To browse for specific journals, conference papers, or IEEE Standards
- How to create email and RSS alerts
- To understand the many features of the AbstractPlus record
- To find the latest content added to IEEE *Xplore*
- To download bibliographic records into post-processing software packages

Date: 16 September 2011

Time: 9:00 to 10:00am

Location: DSRC Bldg.
Room GC-402
